

STORY BEHIND THE BRA

The inspiration for this piece comes from a joyful, lively human being—more like a grandparent than anything else. From swimming to ballroom dancing, Ms. Mary Jo did it all. She embraced her true nature and encouraged me to take risks, whether it be baking or taking a nature hike. Her creative nature truly shone through. She enjoyed painting and decorating for Halloween, nurturing her vibrant garden, and dancing when I played the piano, especially Russian folk dances.

As a tribute to Ms. Mary Jo, I want to capture her earthy and high-spirited nature through this piece of art and express my gratitude for being who she was.

This bra, “Garden of Memories,” was displayed at the BRAs of the Bay event, hosted by Plastic Surgery & Skin Specialists of BayCare Clinic.
